Filed: February 5, 2001 ) Examiner: Nguyen, Kimberly  
For: Surface Covering Having ) Docket No. A148 1330  
Gloss In-Register and Method )  
Of Making )

AMENDMENT

Assistant Commissioner for Patents  
Washington, D.C. 20231

Sir:

In response to the Office Action mailed in connection with the above-identified application on December 16, 2002, please amend the application as follows.

In the Claims

Please substitute the following claims for those corresponding claims as originally filed.  
A marked-up version of the claims as amended herein is attached in an Appendix.

1. (Twice Amended) A surface covering or surface covering component comprising:
- a) a substrate and,
  - b) a thermoset top coat overlying the substrate, the thermoset top coat being formed from a radiation curable composition, the thermoset top coat comprising an exposed surface that includes a first region with a first concentration of a gloss controlling agent and a second region with a second different concentration of the gloss controlling agent,
- whereby the exposed surface of the thermoset top coat adjacent the first region has a first gloss level and the exposed surface of the thermoset top coat adjacent the second region has a second different gloss level.
